

## SIXTEEN DIE IN MOTOR TRAIN WRECK

Union Pacific Train Goes  
Through Bridge Near  
Randolph, Kan.

## RECOVER ELEVEN BODIES

Only Four of Sixty-Five Persons  
in the Two Cars of the  
Train Escape Without Injury

## FRONT CAR HALF SUBMERGED

RANDOLPH, Kan., Oct. 16.—Late estimates tonight, placed at 16 the number of persons killed today when a Union Pacific motor train plunged through a bridge over Fancy Creek near here. Eleven bodies had been recovered from the half submerged front car. Two score persons were believed to have suffered injury in the catastrophe.

### Only Four Escape Injury.

Sixty-five persons were in the two cars of the train when the crash came shortly before 8 o'clock this morning. As far as can be learned only four of that number escaped without injury. Investigation has developed that the bridge itself did not give way, but that a banked approach weakened by the three inch rain of the night before, sagged when the train struck it and hurled the forward car through the bridge into the mud and water. The second car of the train remained on the track. Wreckers from Manhattan and Marysville, Kan., found the forward car standing almost perpendicularly, its front end including the motorman's cab and smoking compartment buried deep in the swirling waters of Fancy Creek.

### List of Recovered Dead.

A revised list of the recovered dead follows:  
Dr. Louis Atwood, Topeka.  
Mary Gies, Manhattan, Kan.  
Miss Alma J. Jellin, Garrison, Kan.  
Mrs. Stella Chapman, Manhattan, Kan.  
Miss Ethel Retzer, Stockdale, Kan.  
A. O. Shaw, Tecumseh, Neb.  
Theodore Smith, Tecumseh, Neb.  
Carl Stoneburg, Randolph, Kan.  
Miss Della Peterson, Stockdale, Kan.  
Infant of Mrs. Emma Dellinger, of Frankfort, Kan.  
G. T. Brummitt, Topeka, Kan.

Stories of survivors reaching here tonight told vividly tales of the horror and confusion immediately following the wreck. Many of the injured are young women delegates to a county convention of school teachers and it was from them for the most part that the eye-witness stories were obtained.

### Work of Rescue Extremely Difficult.

According to accounts, the passengers who were not pinned down by wreckage in the front car were hurled toward the forward end of the coach into the water. The task of rescuing these persons, wedged against the partition separating the smoking compartment from the rest of the car was extremely difficult. With the rear end of the car standing high in the air, and the front end buried in the mud it was necessary for rescuers to scramble down the outside of the car gaining precarious footholds on the window ledges. With the imprisoned passengers were reached the windows had to be broken in many cases before they could be freed and following the liberation the same precarious trip along the side of the car had to be repeated before the passengers, who in nearly every case had suffered some injury, could be given first aid. Many of the injured were unconscious from shock or loss of blood and had to be carried along the perilous path to safety.

### All in Smoking Compartment Dead.

What occurred in the smoking compartment probably will never be known. No one from that section has been numbered among the survivors. The compartment was submerged almost immediately after the accident, gave way and gave the passengers little or no chance to escape. The impact of the wreck shattered the windows and the flood waters poured in, probably drowning the passengers whom it is believed were in the majority of cases pinned down by wreckage. Three bodies have been taken from the smoking compartment and while physicians say their injuries were sufficient to have caused death, the direct cause of death in each case was drowning. All of the remaining bodies in the car are in the smoking section.

Heroic acts were many on the part of passengers who were themselves injured. J. H. Saxton, principal of the Manhattan high school, although badly cut and bruised, refused to leave the car until every person who showed signs of life had been removed. When he recovered from the first shock, which precipitated him half way through a window, he seized an iron bar and clambering over the tilted seats, broke out the glass of windows and helped many women to crawl to safety.

Of the two score injured in the wreck several were said by physicians to be in a grave condition to-

## TO ENFORCE CLOSING LAW IN COOK COUNTY

REFORM LEADERS PREPARE FOR  
VIGILANT SURVEILLANCE

Efforts Will be Specially Directed to  
Points in County Easily Available  
from the City—Saloon Keepers  
Are Given Warnings.

Chicago, Oct. 16.—Indications were tonight that Chicago would be as "dry" tomorrow as it was last Sunday when Mayor Thompson's closing order went into effect. Chief Healy indicated that the police activities would be directed toward reforming violations of the closing order to him for later action. Reform leaders made preparation for vigilant surveillance by the employment of special detectives not only in the city but in the country towns outside the city limits. Efforts of the reform leaders, they said, would be specially directed to points in Cook county available from the city. Sheriff Traeger having decided that it is the duty of the village officials to enforce the Sunday closing law.

The sheriff indicated to the reform leaders that if warrants were issued and placed in his hands he would serve them.

Saloon keepers in the towns and villages of Cook county outside Chicago were given warning today that prosecution would follow should they keep their places open tomorrow. The notice was sent by Arthur B. McCold head of the Citizens' League, who announced later that his organization would have investigators in all parts of the county tomorrow, prepared to take evidence of violation of the Sunday closing law which he would present to the state's attorney.

Telephonic communication with the principal places outside the city resulted in the information that only the suburb of Niles would heed the warning.

Cleora, Forrest Park, Blue Island and others of the larger places reported that extra preparations had been made for accommodating the crowds expected from Chicago on Sunday.

## SEVERE EARTH SHOCK IS FELT THROUGHOUT KANAI PENINSULA

SEWARD, Alaska, Oct. 16.—A severe earthquake was felt throughout Kana Peninsula at 8:10 last night. The shock continued ten seconds but as far as known no damage was done.

In Seward the earthquake was accompanied by a roar as if there had been a tremendous explosion. Buildings trembled and people rushed into the streets.

Immediately after the earthquake a strong north wind arose bringing the first snow of the season.

No report has been received from the vicinity of any of the volcanoes to the eastward but some believe that the noise of the explosion which accompanied the earthquake heralded an eruption of one of the distant peaks.

### TEN REASONS CONTAINED IN MOTION.

New York, Oct. 16.—Ten reasons why the indictment against the eleven directors of the New York, New Haven and Hartford railroad trial charged with monopolizing the transportation traffic of New England should be dismissed are contained in the motion filed yesterday with Judge Hunt by the attorneys for the defendants after the over-Sunday adjournment of the trial, but not made known until today.

### FIND MEXICANS GUILTY.

El Paso, Texas, Oct. 16.—Victor L. Ochoa, Emil L. Holmdahl and Jose Orozco today were convicted in federal district court for conspiracy to violate the neutrality laws of the United States. Jorge U. Orozco, former Carranza consul at El Paso, who was also indicted was found not guilty. Sentence will be pronounced Monday.

### GEN. CARRANZA RETURNS TO SALTILLO

Laredo, Texas, Oct. 16.—Venustiano Carranza soon to be recognized by the United States as the head of the defacto government of Mexico returned today to Saltillo, where as governor of the state of Coahuila he initiated the constitutional revolution which overthrew Victoriano Huerta.

night. The Majority of the injured were cut by flying glass.

The recovery late tonight of the body of G. T. Brummitt, of Topeka, Kan., brought the total known dead in the wreck to eleven.

Wrecking crews continued working tonight to raise the car to a point where the bodies imprisoned in the smoking compartment could be reached and removed. Two additional bodies taken from the wreckage brought the total number of recovered to six more bodies still were in the car.

O. M. Warner, motorman on the wrecked car, was not killed as at first believed. When the car plunged against the bridge abutment the shock threw him through a front window of the car into the water. He waded out and ran to summon aid.

## ROUMANIA WILL REMAIN NEUTRAL

Joins Greece in Declining  
to Enlarge Near East  
Conflagration

## GERMANS ON DEFENSIVE

Isolated Bomb Attacks Occur  
on Western Front With  
Varying Fortunes

## BULGARS FORCE RIDGES

LONDON, Oct. 16.—Roumania has joined Greece in declining to enlarge the conflagration in the Near East by declaring officially that the Roumanian government intends to preserve strict neutrality.

This step followed close on intimations from unofficial German sources that it was time that Bucharest gave more definite indications of Roumania's stand, in view of the latest developments in the Balkans. From a German source also comes a report that British and French ministers are leaving Athens. But this report was discredited here and it is without any other confirmation.

Germans appear to be on defensive.

Unofficial reports from Petrograd say the Germans appear to be on the defensive along the entire line, except that section near Dvinsk which, it is said, they have been ordered to capture at any cost. Berlin, however, officially reports Russian attacks not only before Dvinsk but at a number of other places and adds that they have been repulsed. These attacks were all comprised within the army group of Field Marshal Von Hindenburg, which is taken to mean that the Russians have assumed something in the nature of a general offensive along the front of which Dvinsk forms a vital salient.

Along the western front many isolated bomb attacks have occurred with varying fortunes. Italy is again unofficially reported to be on the verge of joining her allies in the Balkan campaign. While the French and British are still landing troops at Saloniki for the army which will be under the supreme command of General Zarrai, the former commander in chief of the French army of the orient, the Germans announce that their force continue to make headway against the Serbians, whose positions south of Semendria have been stormed.

### Bulgars Force Frontier Ridges.

The Bulgarians are said to have forced the frontier ridges at several points between Negrita and Strumika. That Bulgaria does not anticipate any hostile action on the part of Greece is indicated by dispatches from Bucharest stating that Greece has purchased large amounts of wheat from Roumania which will be permitted passage through Bulgarian territory.

## TO ERECT SMOKLESS POWDER FACTORY NEAR SPRINGFIELD

SPRINGFIELD, Ill., Oct. 16.—A branch smokeless powder factory of the Western Cartridge company of Alton, Ill., employing 500 men and requiring forty building for housing, will be erected six miles north of this city.

The deal for a location was closed today and work of construction will begin at once.

The increased orders incident to the European war is said to be the reason for the new plant, although officers declare its operation will be permanent.

### RUSS KEEP UP ATTACKS.

Paris, Oct. 16.—A despatch received by the Havas Agency from Zurich, Switzerland, under today's date, says: "The Russian keep attacking the German positions along the frontier of Bosnia. Their artillery is active and enormous masses of troops are trying desperately to take positions by assault. The combat is continuing."

## ARREST ALLEGED COUNTERFEITERS

Detectives Locate Source  
of Flood of Spurious  
Five Dollar Gold Pieces

## TAKE FORMER POLICEMEN

Operations Are Said to Have  
Been on Largest Scale Ever  
Encountered By Secret Service

## WORKED ON CASE FIVE YEARS

SAN FRANCISCO, Oct. 16.—The source of a flood of spurious five dollar gold pieces variously estimated as representing between \$25,000 and \$500,000 circulated throughout the United States for three years has been located, government agents said here today in the arrest of two former Oakland, California, policemen, Rollie A. York and Edward Karr.

Both were due here tonight in custody of United States marshals, York from Columbus, Ohio, Karr from Ogden, Utah, to answer secret federal indictments returned several weeks ago. The plant, alleged to have been used by the counterfeiters has been located in San Francisco, it is said. The operations are said by the police to have been of the largest scale ever encountered by the United States secret service.

### Escaped Police Before.

Columbus, O., Oct. 17.—For more than five years federal authorities have been trying to locate the source of counterfeit five dollar gold pieces which have been in circulation throughout the west, government officials said here tonight. Detectives traced Edward Carr and Follie A. York to this city several months ago, but before arrests could be made, the two men who are charged with being the authors of one of the biggest counterfeit swindles ever perpetrated in the west, escaped leaving their clothing and trunks behind.

Carr returned to Columbus last week and was immediately placed under arrest. Having learned through a letter which York is alleged to have written to Carr that the former was in Ogden, Utah awaiting the arrival of his trunk, officials here said federal agents had little difficulty in locating him and placing him under arrest.

## POSTPONE COURT MARTIAL OF REAR ADMIRAL LITTLE TO NOV. 1

WASHINGTON, Oct. 16.—The court martial of Rear-Admiral William N. Little retired, was postponed today until Nov. 1st. Admiral Little explaining to Secretary Daniels that he would be unable to prepare his defense by next Monday, the original date set. The officer is charged with neglect of duty in having accepted as machinery in a submarine K-2 from the builders when he is alleged to have known that there was defective construction in her electric storage batteries. In documents relating to the case made public today, Admiral Little is quoted as having said that acceptance of the boat was based on the contractors' agreement "to stand back of the battery for all time as to the alleged careless workmanship."

### POLICE DISCOVER BAND OF DRUG USERS.

Galesburg, Ill., Oct. 16.—As a result of an investigation of burglaries here of which physicians and chemists were the victims, the police announced tonight that they had discovered an organization of drug users who had banded together since the operation of the Harrison act, to secure the habit forming drugs they craved by any means.

## NEW THEORY DEVELOPS IN PHILLIPS MURDER

BROKER MAY HAVE BEEN VICTIM OF  
POLICE PROTECTION PLOT

Theory is Based on Visits Murdered  
Man is Said to Have Made Recently  
to State's Attorney Hoynes  
—Detail Detectives to Develop  
Theory.

Chicago, Oct. 16.—A new theory in the Phillips murder mystery developed today namely that the west side jeweler and pawn broker may have been the victim of a police protection plot. The theory was based on visits Phillips is said to have made recently to State's Attorney Hoynes who has already obtained convictions of former police officers accused of accepting bribes to protect criminals.

Detectives were detailed to develop this theory. It was said that new policemen had demanded money from Phillips on pain of arrest for having in his shop jewelry said to have been stolen.

Court records here show that Harry Phillips, the man slain last night was arrested in 1913, charged with having in his possession \$2,000 worth of jewelry stolen in Cleveland and other eastern cities.

Phillips was not convicted on the charge of receiving stolen property. At that time rumors were current that certain policemen "shook him down." The state's attorney could not be located today to confirm reports of Phillips' alleged visits to him.

## "MOTHER" JONES TO TAKE CHARGE OF GARMENT WORKERS CAMPAIGN

Noted Labor Advocate is to Address  
Score of Cabarets Tonight in the  
Interest of Strike Fund.

Chicago, Ill., Oct. 16.—"Mother" Jones, noted labor advocate was to arrive in Chicago tonight to assume charge of the campaign on behalf of the 15,000 or more garment workers, who have been on strike for three weeks, demanding more pay and recognition of the union. She was to address a half score of mid night cabarets Sunday night in the interests of the strike fund. A demonstration in her honor was to be accorded her on her arrival here by strikers and labor leaders.

Four suits by the state factory inspector to stop tailoring concerns from permitting strike breakers to sleep in their factories were started today. The suits seek to halt the practice of feeding and housing strike breakers in tailoring shops. The aldermanic committee which has been investigating the strike and its cause and solution today announced that they had failed in their efforts to persuade the manufacturers to discuss arbitration.

There were number of arrests today and several small riots but the one was seriously hurt.

## TWO WOMEN ARE KILLED AND ONE IS PROBABLY FATALY BURNED

ATLANTA, Ga., Oct. 16.—Two women were killed and one other probably fatally burned today in a fire which swept the offices of the Mutual Film corporation on the second floor of a local office building here. Explosion of an electric fuse in a room where picture films were being prepared for shipment is believed to have started the blaze, which spread so rapidly that the score of women and girls employed in the place were trapped. Firemen made several spectacular rescues.

Several employees sustained minor injuries from the flames and by jumping.

## SEEK EMPLOYERS' AID IN DEFENSE PLAN

Will Be Asked to Permit  
Employees to Engage  
In Training

## ESSENTIAL PART OF PLAN

Success Depends on Patriotic  
Response of Employers  
to Grant Furloughs

## REQUIRES 2 MONTHS SERVICE

WASHINGTON, Oct. 16.—Employers throughout the United States, corporations, manufacturers, professional men, tradesmen and business men of all classes are to be asked to contribute, as their share in the National Defense program, to permit their employees to engage without serious financial loss in two monthly military training during each of three years.

This is an essential part of the administration's plan for raising a citizen army of 800,000 men in six years, which with a regular army of 140,000 men and 300,000 reserves would give a trained force exclusive of state militia of about 1,200,000 in event of war.

### Depends on Response of Employers

The success of the plan, officials admit, depends not on the appropriations of congress, for its cost will be comparatively small, but on the patriotic response of employers to whom an appeal will be made to furlough as many men each year at different seasons as they can spare and who wish to join the proposed continental army.

Administration officials are confident that even though it is proposed to enlist only 133,000 men a year in the continentals, or a total of nearly 800,000 in the first six year period, more than that number would be attracted by the outdoor life of a military camp if they could be assured by their employers that their positions would not be lost nor their earnings seriously decreased. The proposed enlistment required two months service for each of three years and liability for service during the remaining three years only in event of war.

### Absorbing Topics of Interest.

The army plans for more than 1,000,000 trained men in six years and the navy's program of ten dreadnaughts and six battle cruisers within five years, both of which will be presented to congress with the endorsement of President Wilson, were the absorbing topics of interest here today. The proposed army appropriation bill will be \$182,000,000 or an increase of \$72,000,000 over last year and that of the navy \$215,000,000, a \$68,000,000 increase. The defense budget of nearly \$400,000,000 is an increase of \$140,000,000, which it is understood is to be raised by a bond issue and increased revenues expected from a return to certain tariff duties removed last year.

Added details of the navy plans became known tonight. The five year program includes, besides the ten dreadnaughts and six battle cruisers, 85 coast submarines, 15 sea going submarines, 50 destroyers, 15 scout cruisers and five gunboats. Two dreadnaughts will be built each year. Two battle cruisers will be built the first year, one the third year, two the fourth year and one the fifth year.

### To Evenly Distribute Fund.

This plan was agreed upon in order that the appropriations out of the \$500,000,000 fund to be expended for new ships during the five years might be evenly distributed through the various sessions of congress. The first year's bill will provide \$28,000,000 in complete ships already authorized besides the new dreadnaughts and battle cruisers and provide also for the construction of 25 coast submarines, five sea going submarines, 15 destroyers, three scout cruisers, two gunboats, one fuel ship and one hospital ship; \$2,000,000 for air craft and for 10,000 additional men and 250 additional mid-shipsmen at the United States naval academy.

The decision to increase the personnel was welcomed in naval circles where it had been variously estimated that the navy is now from 10,000 to 18,000 men short of the complement necessary for ships built and building.

By authorizing sixteen capital ships in the five year program the American fleet when all ships are completed will be composed in 1925 of 33 dreadnaughts and battle cruisers for the fighting line and thirteen battleships of the second line or a total of 46 capital ships. This would be exclusive of nine battleships now in commission which will be superannuated in 1924.

According to the Chicago Post the suffragists of the big city believe that liquor interests this year will openly connect anti-suffrage with the wet cause. This combination the Post believes will be bad politics on the part of the liquor interests for that paper says the account of this association many forward minded men will vote not so much against liquor as against the illiberalism and undemocracy through which liquor fights.

The testimony at the Munday trial is revealing some marvelous financial transactions. One bit of evidence indicated the other day that one check for \$250,000 had been used three times in the Munday bank. Seemingly Mr. Munday believed that the basis of business is nothing but confidence anyhow, and that so long as people had confidence that it didn't matter much whether there was any real money behind the checks he was using.

Some prisoners in a Missouri state penitentiary are so smooth that they almost deserve release. Several of them recently devised an unusual way for getting outside the prison walls. One of them who understood the matter secured some tuberculosis germs and they were applied in such a way that the prisoners who were "in" on the plot were made subjects of parole because they were adjudged afflicted with this disease. The state bacteriologist recently discovered this startling state of facts and now some of the "sick" men are back in prison.

President Wilson's telegram of congratulation to Miss Aileen Mary Dunne, daughter of Gov. Dunne, who is son to wed, was carried in the press dispatches yesterday. It naturally happens as the result of the president's own state of heart at this particular time that the message has more of a ring of sincerity than usually attends such messages from one official family to another. The president is evidently in a "me too" spirit.

In these days when problems of public and private health are so much discussed, the record of a Milwaukee woman comes into prominence. Mrs. Louise K. Thiers of that city should be the most envied woman in America. She has but recently completed 101 years of an active, useful life and it is recorded that she has been sick but a single day during all that period. The illness was so long ago that Mrs. Thiers has almost forgotten it, but it was when she was a child of eight years. It goes without saying that this aged woman has lived very carefully and quietly and with due attention to the important questions of sleep and diet.

It has recently been announced that Hall Caine in his latest book has built a drama out of the first year of the great war. This well known writer has not been compelled in this instance to appeal to the imagination but has included only actual incidents of the conflict. Certainly with its tremendous happening involving so many great nations, the war has furnished material for a thousand books. The preface to the author's latest effort quotes the suggestive statement by Mr. Maeterlinck that, "The theory that what we call war is neither more nor less than the visible expression of a vast invisible conflict. The unseen forces of good and evil in the universe are using man as a means of contention."

### "Millions for Defense."

The dispatches from Washington say that President Wilson has given his O. K. to Secretary Daniels' recommendation for a five year construction program for the navy to cost \$500,000,000. Secretary McAdoo in a recent speech made a plea for a \$40,000 merchant marine, and the administration is also said to be in favor of considerable army increases. A poll of congressmen and senators made by the Boston Advertiser gave conclusive evidence that the great majority are in favor of some program for increasing the national defense. So there is every indication that the advocates of preparedness are in the vast majority and that a program of preparedness for war will be carried forward when congress meets as a non-partisan proposition. That is what it should be, for this is a question of patriotism and not of politics.

### A Campaign for Funds.

The formal announcement by Dr. Harker and the board of trustees of the Woman's college that a campaign is to be waged for the purpose of completing the \$200,000 endowment fund by January 1st, has not come as a surprise. It will be necessary to raise \$75,000 in the next two months and a half to accomplish the desired result, and based on the history of the institution and the general record of President

Harker, it is only reasonable to say that the money will certainly be raised. The same statement will apply to the proposition of raising \$50,000 by June 1st for the erection, equipment and maintenance of a gymnasium building. The gymnasium is greatly needed at the institution, and its erection will undoubtedly attract additional students. It is a matter for general congratulation that the college this year has a larger number of students than ever before in its history. With a freshman class numbering a hundred and twenty in college work it is easy to see what the future holds in the matter of attendance. The college makes its very large contribution to the educational and social life of the community, and as an institution caring for more than three hundred students, the plant is a very valuable business asset.

### Beauty in Usefulness.

Central park was thronged for many hours Saturday with people anxious to inspect the automobiles on exhibition there. There were more than thirty cars and the people were interested in comparing the various models and types. Incidentally the "show" brought to notice that such a use of Central park is practical indeed. Mayor Rogers said in commenting on the success of the display that he hoped that a new exhibition of agricultural implements might be arranged for next spring; that while he believed in having a beautiful park, that ought not to interfere with its utility. It is practically impossible to have Central park covered with a beautiful green carpet of grass, dotted here and there with flower beds, if the park is ever to be anything but "for looks." With the park so centrally located it becomes a natural place of meeting for any large open air gathering, and in case there is a large crowd about the square, there is no place for the people except in the Central park space off the walks. The park can easily be useful and beautiful at the same time and can become a valuable adjunct to the business attractions of the whole square.

### Truthful Advertising.

The country over there is an increasing interest in the matter of honest advertising. It will be remembered that the Illinois legislature passed a law at the last general assembly making it an offense punishable by a fine or imprisonment for a merchant to dishonestly advertise goods. In Kansas City the Ad Club has a vigilance committee, the purpose of which is to make war on fake advertising. One hundred merchants have joined in the movement to weed out the advertising of fake commodities and their activities thus far have been very beneficial to business and to the public generally. Incidentally it has been discovered by the club that a good deal of fraudulent advertising is not based upon intent to mislead the public but is rather the result of lax business methods and carelessness. The vigilance committee has let it be known that they will investigate complaints from dissatisfied purchasers of articles and any person who wishes to make a complaint can address a certain box in the Kansas City post office. It has been through the investigation of some of these complaints that it has been possible to correct some evils. In most cases the committee has found that merchants have been glad to co-operate in changing their advertising methods as they seem to realize that only advertising which brings satisfied customers can be permanently beneficial.

### Treasury Comparisons

#### Now Impracticable.

Because the American people are entitled to know the condition of the business of their government, many newspapers have been publishing once a week, or oftener, a statement of the condition of the federal treasury, showing the net balance in the general fund as compared with the balance two years earlier, when Republican revenue laws and appropriations were in effect. Needless to say, the showing was not at all creditable to the present Democratic administration. Perhaps the repeated publication of the daily diminishing balance got on the nerves of Secretary of the Treasury McAdoo, son-in-law to the President and supposed exponent of President Wilson's "pitiless publicity". At any rate, Secretary McAdoo made a change in the form of the daily treasury statement, effective October 1, so that hereafter it will be impossible to compare Democratic with Republican treasury conditions. On the last day of September, 1915, the net balance in the general fund was \$10,898,894. On the corresponding date two years ago, the balance was \$123,416,613. Since this administration could not otherwise get away from the showing made in its daily statement, Secretary McAdoo changed the method of keeping accounts so that a balance of less than \$41,000,000 on September 30 leaped to the gratifying sum of \$128,063,545 on October 1. Undoubtedly it is pleasing to Secretary McAdoo and to the President to read these figures in the daily statement but far more pleasing must be the thought that hereafter Republican newspapers will not be able to print comparisons between Democratic and Republican treasury balances. Great is the art of publicity.

### CEMETERY LOT DRAWING.

There was a cemetery lot drawing at Murrayville Saturday, in the new cemetery plot, which was recently purchased, consisting of seven acres at \$275 per acre. There were 45 citizens who subscribed money sufficient to make possible the purchase of the lots and these were given the first chance at the drawing.

### DOMESTIC SCIENCE ROUND TABLE BEGINS WORK OF NEW CLUB YEAR

Meeting Saturday at Home of Mrs. E. Spink—Members of Organization May Prepare Cook Book.

Sixty-five women were present Saturday afternoon at the first meeting of the Domestic Science Round table for the year 1915-16, entertained by Mrs. E. Spink at her home on West Lafayette avenue and led by Miss Clara Cobb. "Hallowe'en Traditions" was the theme of an interesting paper by Miss Cobb and decorations emblematic of the season, beautified the rooms. A number of recipes were given for pickles and relishes and these, it is probable, will be incorporated in a cook book which the round table plans to issue. An appropriate luncheon was served at the close of the program.

In Miss Cobb's paper, the history of the Hallowe'en festival was traced from the time of its early observance in the 15th century.

Mrs. L. H. Pratt will entertain the round table for the next meeting, Saturday, Nov. 20. Mrs. H. L. Griswold will prepare the program.

The officers for the new year are: Chairman—Mrs. Ben B. Lorton. Vice-chairman—Mrs. A. J. Ward. Secretary—Mrs. G. O. Webster. Treasurer—Mrs. Geo. H. Harney. Program committee—Mrs. Frank Hairgrove, Mrs. George W. Rhea, Mrs. J. E. Knapp, Mrs. T. H. Buckthorpe and Mrs. Elizabeth Stebbins.

Courtesy committee—Mrs. J. K. C. Pierson, Mrs. David Kennedy, Mrs. C. E. Blagrove, Mrs. George Imgrund and Mrs. M. C. Hook.

Following are the members of this department of the Jacksonville Woman's club—Messdames A. L. Adams, W. S. Badger, William Baumgartner, T. H. Buckthorpe, O. F. Buße, C. E. Blagrove, O. N. ### REGRETTED LACK OF TIME TO GIVE PROSPECTIVE BUYERS

L. F. O'Donnell who had on display at the auto show Saturday, his Detroit Electric, White, and Empire cars regretted that he was not able to give more time to a number of prospective buyers, and other visitors. He feels grateful, however, to those who inspected his cars and he stated last night that he would be glad to have those interested call at his office, 215 East North street, or notify him by phone.

### CONFERENCE BRIEF IN

#### UTILITY CASE.

Mr. and Mrs. A. D. Stevens of Springfield were in the city Saturday and Mrs. Stevens was a guest at the Woman's college. Mr. Stevens came here to meet City Attorney John J. Reeve and go over with him the draft of the brief which is to be presented to the Illinois utilities commission in behalf of the petitioners in the Jacksonville rate case. This brief is to be filed by November 1st, in accordance with the order of the commission. It will not be as extensive as one might expect, considering the mass of evidence which has been presented since the case was first brought. Mr. Stevens and Mr. Reeve are of one mind in believing that a very extensive review and argument is not necessary. In all probability the whole in printed form will not occupy more than seventy-five pages. Briefs on both sides are to be filed at the time indicated, and the finding of the commission is expected the latter part of December or at least by the first of the year.

Here's a record-breaking companion for that suspenseful masterpiece, "Out of the Ruins", for "The King of the Wire" is written and produced by the same emotion twister, Ashley Miller. The same man who, in "Out of the Ruins", put over the big life-saving act, Pat O'Malley, is here presented in a bigger nerve tingler still—see him walk on a slack telephone wire, high above the tree tops, with Gladys Hulette on his back! As the wire swings and sways, as we see the crook start out in pursuit, walking the same wire, you will get a thrill that starts the perspiration. Then comes the battle in the air, on the swaying wire, and the fall!

It's nothing of the same old stuff—something new, big gripping in the very unusualness of it, not to mention how cleverly it is inwrought to put punch of triphammer power into the play.

### NATIVE HOLLANDER A VISITOR IN THE CITY.

Lieut. Nordwall is traveling around World in Wooden Shoes—Will Lecture at Majestic.

Lieutenant Nordwall, a native of Holland, arrived in Jacksonville yesterday and attracted considerable attention as he traveled about the streets clad in the native costume of his country and with his feet encased in wooden shoes. Lieut. Nordwall has spent years in travel and has made the circuit of the globe. For some time his sister, Miss Wilhelm, accompanied him but less than a year ago he took her back to Holland and but seven months since returned to America. Since then he has spent most of the time in lecturing, his talks being based upon his travels and also upon war conditions in his native land. Lieut. Nordwall received his title by service in the army of Holland. They do not have conscription in that country, but through a lottery system the effect is practically the same, as nearly every able-bodied man is required for service. The visitor will probably be in Jacksonville several days and is to tell something about his travels and about war conditions in Europe at Luttrell's Majestic theatre, next Tuesday night. His lecture will add greatly to the interest of the evening's program at that popular playhouse.

## WISCONSIN WIMS FROM PURDUE AT LAFAYETTE

GAME IS CLOSER THAN SCORE INDICATES.

Illinois is held to a Tie by Ohio State—Michigan Comes Up From Behind and Defeats Case.

Lafayette, Ind., Oct. 16.—Wisconsin won from Purdue 28 to 3 here today in a game that was closer than the score indicates. The Boiler-makers' line stopped the navy Badgers' time after time and Wisconsin frequently was held for downs.

The ball was in Wisconsin territory throughout the first quarter. A series of line plunges gave Pritz the opportunity to kick goal from the 25-yard line for Purdue's only points. In the second quarter Pritz recovered a punt and made a spectacular 80-yard run for the Badgers' second touchdown of the quarter.

In the fourth period Captain Plocker of Purdue was injured and left the game.

Illinois 7; Ohio State 3.  
Columbus, O., Oct. 16.—Illinois football players were held to a tie by Ohio State on Ohio field today. The final score was 3 to 3.

Standing on the 33-yard line in the fourth period with only three minutes to play, Halfback Winters of Ohio kicked a goal from place-ment for the first score of the game.

The Illini repeatedly made use of the forward pass but without success. Anderson finally captured one of McChumber's offerings and gave Illinois opportunity to tie the score.

From the 24-yard line Macumber dropped kicked the ball through the posts for his team's third points.

Half back Pogue of the Illini and quarterback Clark were out of the game on account of injuries.

Score by quarters:  
Ohio State . . . . . 0 0 0 3—3  
Illinois . . . . . 0 0 0 3—3

Michigan, 14; Case, 3.  
Ann Arbor, Mich., Oct. 16.—Michigan came up from behind today and defeated the football eleven of Case College. Many of the Wolverine second string men were in the game. Only two regulars being in the line-up when Bannerman of Case dropped kicked a goal from the 20-yard line in the first period.

Yost sent his greatest star Mautbetsen into the game at the beginning of the third period. The powerful ground gainer battered his way through the Case line time and again and finally carried the ball over for a touchdown.

Cochran kicked goal.  
In the final period Mautbetsen again crossed the visitors goal line but the touchdown was not allowed. Referee Henry ruled that Niemaa had been guilty of rough play on the last plunge.

## ILLINOIS TROUNCES NORMAL U. 27 TO 0

L. C. PLAYERS GO ON RAMPANT IN SECOND QUARTER.

Normal Coach Rushes in Every Man Available in Order to Stop Avanti Machine Work of Illinois Eleven to No Avail—Frisbie Makes Spectacular Play.

Illinois College football team took another step forward in the march toward the championship of minor colleges of Illinois when they defeated Normal University Saturday afternoon, on Normal grounds, by a score of 27 to 0. The great machine which Coach Russell had prepared for Illinois was mashed to pieces by the terrific battering of Coach Harman's eleven. Illinois nursed the game along in the first quarter and when the second opened the onrush was so ferocious by Illinois that when the smoke of battle had cleared away the score stood 27 to 0 in favor of Illinois.

Normal made a beaten path of men going out and getting in the game, and about every substitute that ever wore a suit of the university style was pressed into service without avail. Normal was licked before they ever went on the field and there was nothing for Illinois to do but make the fact known to the spectators and crowd of Normal rooters. Illinois let up in the second half, knowing they had the game tucked away and played more of a defensive game. Illinois' goal was never threatened and Normal never got within Illinois 15 yard line with the ball in their possession. Normal was outgeneraled, outplayed and outclassed.

Frisbie made the spectacular play of the entire game. In the second quarter he was running for a pass, hotly pursued by a Normal man, who was running, not to make a tackle but to head him off. Frisbie tipped the ball as it passed over his head and the oval fell into the outstretched arms of the Normal runner. As it did so Frisbie made a complete turn, took the ball out of the hands of the Normal player and ran fifteen yards for a touch down.

In the first quarter Illinois kicked to Normal. Illinois held Normal for downs and by line plunges and end runs concluding with a long pass of Wilson to Stewart, took the oval within striking distance of goal when Alford was sent over for the touchdown. Frisbie kicked goal.

In the second half Normal got dizzy and Illinois' run their ends, made line plunges at will and with long forward passes piled the score up at will. Alford got the first touch down of the quarter, but Stewart missed goal. A long forward pass to Frisbie, spoken of above netted the second touch down. Frisbie kicked goal. The third touch down followed a few minutes later when Wilson made a tackle slide for a touch down. Frisbie kicked goal, with score 27 to 0.

In the second half Illinois played a listless game, while Normal displayed a much aggressive spirit. It was evident that Illinois was not going to exert herself to pile up a score, although Normal played desperately to take the elph-r, which they saw in held outline, from the score board.

Coach Harman gave some of his second string men a chance at the game in the second half. Dick Reynolds substituted for Stewart. Zinz for Mellor at left guard; Whisler for Helme at left half and Mangnor for Frisbie at right tackle.

## JACKSONVILLE LOSES TO NORMAL

LOCAL HIGH DEFEATED BY SCORE OF 7 TO 18.

Visitors Start Game Off With a Rush By Getting Two Touchdowns in the First Quarter, J. H. S. Lacks Team Work although Playing at Times Was Good.

Normal high football eleven hung it on to the Jacksonville high yesterday, on Illinois field, by a score of 18 to 7. Normal started the ball rolling in the first quarter after five minutes of play registering their first touchdown, and added another touchdown before the quarter ended.

Capl. Arnold of Normal outgeneraled the local bunch and the visitors used trick plays in rapid succession. Quarterback Reynolds displayed poor headwork in directing his team and on several occasions could have made big gains for Jacksonville. One instance in particular when the ball was on the 30 yard line of Normal's goal on the last down Reynolds called for an end run. The Jacksonville men would be going good when a forward pass would be called and Normal invariably secured the ball.

In the first half of the game Reynolds only called for one punt. There was too much individual playing on the local squad and not enough team work.

Normal has a good bunch of players and while there were no particular stars, it was evident that they were playing to win. After winning their 12 points in the first half, they seemed to let up and it was at this time that Jacksonville took advantage of the lull and pushed the ball over the line by a succession of line bucks and end runs. Normal made a desperate effort to add another touchdown in the last quarter but Jacksonville put up a stubborn resistance and a fumble by Normal on the 12 yard line was costly to them.

The visitors played a clean game and their was an absence of bickering among their players. Ellis Stubblefield, who made the third touchdown for Normal collided with a Jacksonville man and lost a tooth as a result. He displayed his grit and stayed in the game, although later he was replaced by Huffington.

The game opened with Normal kicking to Felfe, who ran the ball back 19 yards. J. H. S. failed to make their gains. Normal punted and recovered the ball again on Jacksonville's 40 yard line. By a series of end runs and a trick play Arnold shot over the line after five minutes of play for the first touchdown. Normal failed to kick goal, score 6 to 0.

Normal kicked off and Priest returned the punt a short distance. Howard Reynolds and Homer Reynolds made some consistent gains by line

bucks and end runs but in attempting a forward pass, Normal secured the ball. A trick play netted the visitors 10 yards. Jacksonville was punished for off side play. After two more line bucks, Duff, the colored player of the visitors made a pretty long pass to Youngblood, who crossed the goal with the ball. Normal failed to kick goal, score 12 to 0.

At the second quarter, when the ball was on Normal's 30 yard line, the visitors again demonstrated their tenacity with their trick plays and aided by two good gains by Capl. Arnold and Ellis Stubblefield carried the ball down the line in good fashion. The next play E. Stubblefield made a long run around Jacksonville left's end, but time had to be taken out until the runner recovered from the jolt he received. The plucky little player was given the ball after the second play and went over the line for Normal's third touchdown. Normal failed to kick goal, score 18 to 0.

Jacksonville kicked off and Normal began to advance down the field again and on the 25 yard line they attempted a place kick but failed. Jacksonville instead of punting attempted to carry the ball into Normal's territory without much gain. Ellis Stubblefield was taken out and Huffington was put in his place. The quarter ended two minutes later with the ball in Jacksonville's possession.

Jacksonville kicked to Normal in the beginning of the second half and Normal marched down the field after returning the ball 15 yards. Aided by two strong end runs the ball was carried to within 20 yards of goal when a place kick was tried out failed. Jacksonville attempted to return the ball by end runs and was thrown for a loss. Jacksonville punted out of danger. Blinon at right guard was replaced by Homer Petty on the visitor's team. J. H. S. held Normal for downs, Priest making a good gain on an end run, but in next play Normal intercepted a forward pass. The rest of the quarter was a see-saw game up and down the field the quarter ending with the ball on Normal's 25 yard line in the possession of Jacksonville. It was here that the local lads took a decided brace and by a succession of line bucks and end runs in which Howard Reynolds carried the ball for two big gains, Homer Reynolds was pushed over for Jacksonville's only touchdown. Howard Reynolds kicked goal, score 18 to 7.

The remainder of the six minutes of play was a hard fought one between the elevens. Normal came near scoring when they got the ball down on Jacksonville's 6-yard line when Jacksonville's line stiffened. Normal tried a forward pass and Howard Reynolds intercepted the pass and came almost getting away with a clear field. He did carry the ball 20 yards and was downed by Duff, when the whistle blew.

## WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo. — "I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advises itself. — Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacement, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

### BANKER IN OPEN ETTER TALKS OF FOOT AND MOUTH DISEASE

Aid of Farmers and Stockmen Is Sought in Preventing Spread—Contagious Possibilities Are Emphasized.

In a circular letter addressed to bank officers W. A. Hoan, president of the Live Stock Exchange, National Bank of Chicago, makes the following statement about the foot and mouth disease:

1. It is the most contagious and infectious of all animal diseases. Even flies spread it from farm to farm.

2. There is no known cure for it. While under good care an average of only about 3 to 5 per cent. of grown cattle, 30 to 50 per cent. of calves, 20 per cent. of hogs and 15 per cent. of sheep die outright from the disease, yet when animals become affected with it, like venereal disease or scrofula in human beings, it smolders in the system and is liable to break out again at any time. While the number of immediate deaths are comparatively few, yet under ordinary care the condition of many of the surviving animals is often deplorable.

3. This disease has been prevalent in Europe for over a century, where the quarantine method with military enforcement has generally been adopted for its suppression, with the result that it has spread all over the continent and become permanent, so that it is now too late to adopt the slaughter method and there is no hope for its eradication.

4. The United States has had six epidemics of the disease prior to the present one. In 1870, 1880, 1884, 1892, 1908 and 1914, all of which were quickly stamped out by the method of immediate slaughter and burial of all infected and exposed animals and cleaning and disinfecting the premises. The United States is the only nation that has adopted the slaughter method from the start, and the only one that has ever succeeded in completely stamping out the disease.

5. The National Dairy Herd has sometimes been referred to as an example of recovery. But that was an isolated case. It would be impossible to establish on any farm such a quarantine as was done in that instance. The cattle were completely isolated, together with their herds, in the connected second story of a line of great brick buildings, with fly screens at all windows and police and veterinary guards at locked doors day and night, so that there was no possible communication with the sick cattle by either insects, birds, animals or men, except the veterinary directors of treatment who were thoroughly fumigated every time they passed in or out. Besides, the cost, which in itself is prohibitive.

6. Not only is it an expensive and useless under taking to attempt an efficient farm quarantine and cure, but in addition to that expense, even when attempted under the best of such conditions, the cost of the disease, on account of loss in the condition of the surviving animals after apparent recovery, is far greater than the loss from death outright, and there is no recovery of expenses and damages from either state or nation.

7. On the other hand, if the infected and exposed animals are appraised and killed by the authorities, the owner recovers their value as sound animals together with all expenses of their burial and disinfection.

### W. R. TILTON IN SERVICE 35 YEARS

Railroad Engineer Since 1880 Obtains Great Relief Through Tanlac.

#### WELL KNOWN ON RUN.

W. R. Tilton, one of the most capable and trusted engineers of the Baltimore & Ohio railroad, who resides at West Grand Place, Springfield, Illinois, and who is known to hundreds of people along his run, made a most remarkable statement in regard to Tanlac, the new preparation that is now being sold in Jacksonville, and the benefits he had derived from the use of the "Master Medicine."

On meeting W. B. McPherson, who is distributor for Tanlac in the state of Illinois, Mr. Tilton said: "Is there any 'dope' in your medicine?"

"Not a drop," said Mr. McPherson. "Why do you ask?"

"Well, to make a long story short," replied Mr. Tilton, "Since I began taking Tanlac I have slept better in the last ten days than I have for five years. I have been having considerable stomach trouble for some time. This has brought about a nervous condition that I have been unable to throw off. I could not sleep soundly at night and was forced to go on my trip at times feeling pretty well 'all in.'"

"I heard about Tanlac and the relief it was giving so many people, so I thought I would get a bottle myself. I cannot tell you how much it has helped me. My old stomach trouble is gradually leaving me and I sleep 'like a dog' at night. Tanlac is all right and I can heartily recommend it to anyone who is feeling the same way that I did."

When such men as Mr. Tilton, whom hundreds hold in the highest esteem for his worth as a man of unquestioned integrity and one who can be relied upon, praise Tanlac, the new preparation that is being introduced in this city, it cannot be denied that the "Master Medicine" is all that is claimed for it.

Tanlac is now being sold in Jacksonville at the well known drug store of Cover & Shreve—Advertisement.

tion of his premises and for all loss because of sheds, hay or other property destroyed on account of the disease.

8. Certainly there is every inducement for the owners of suspected herds to report them immediately to the nearest veterinarian and let the law take its course, rather than to endanger the whole neighborhood and perhaps the nation at large by either trying to suppress knowledge of the infection or attempting a cure under quarantine. In order to protect his own interests and those of all his neighbors as well as the community at large, every farmer and stockman should be encouraged to report at once to the authorities any rumor or news of suspected infection, so that any cases of the disease may be inspected, appraised and buried as quickly as possible to prevent the infection from spreading. To this end, a system of co-operation with the authorities should be encouraged beforehand as well as during the presence of the epidemic in a neighborhood.

There is urgent need of such action as that advised above, so that normal market conditions, full livestock values, and renewed confidence in the livestock industry may be restored as soon as possible, which can be done only by quickly wiping out all traces of "Foot and Mouth" disease in the United States, and all obstacles should be removed and all encouragement be given to that end.

The present epidemic of "Foot and Mouth" disease is costing the livestock producers of this country hundreds of thousands of dollars daily in reduced market prices resulting from disturbed market conditions and reduced demand. Unless the authorities are given proper assistance, ready co-operation and every opportunity to speedily exterminate the disease, the losses directly and indirectly resulting from it will mount to higher figures still. There is no more important question before the agricultural interests of the United States today than whether the federal and state authorities shall be upheld by the farmers, stockmen and country bankers in their efforts to stamp out this disease, and they certainly will not receive all the co-operation they will need to accomplish their purpose unless there is a larger and better understanding of the situation by the farmers, dairymen and stock raisers generally.

There are tremendous losses awaiting the outcome of these efforts. The whole live stock industry will decline unless they succeed soon and with it will decline the market value of corn and other crops, and of land, while soil fertility will suffer further general reduction. This season has produced vast quantities of rough fed all over the country, which will be very valuable if utilized, but which will be wasted if not fed during the coming winter, and besides there will be a large amount of frozen corn fed only for feeding and which will be a loss if not fed before spring. The interference of quarantine regulations with the movement of feeders and stockmen and sheep between various states, markets and feed lots, together with uncertainty as to spread of "Foot and Mouth" disease, and want of confidence in future values in consequence, are seriously reducing the number of animals going into feed lots to consume the over abundance of feed, which will cause enormous losses to farmers generally throughout the cornbelt, while an abnormal scarcity of meat animals ready for market later on will be inevitable, unless the country is soon relieved of the prevalence of this scourge. Moreover, the continued presence of "Foot and Mouth" disease and scarcity will both tend to discourage consumption, while the reduced demand for meats will lower market prices for live stock.

The epidemic of 1914 cost the federal and state governments over \$19,000,000, but that was a very small sum compared to the enormous losses suffered by farmers and feeders who either sacrificed their neat stock prematurely to escape infection, or else were compelled by necessary quarantine regulations to hold it after ready for market at large expense and to finally sell at a heavy loss. The same thing is happening now in many sections, and the disturbance in the market distribution of live stock is working further losses to producers.

The only solution for all these serious troubles and disturbances in the live stock industry is for farmers and stockmen all over the country to understand clearly the situation in its true features and bearings, and to co-operate with the federal and state authorities in their efforts to stamp out the disease in the only way which the experience of the world for more than a century has demonstrated to be safe and efficient, which is immediate slaughter and burial in quicklime of all infected and exposed animals, followed by cleaning and disinfecting the premises where found.

Whatever you can do to explain and convince the producers and shippers of live stock along these lines, will prove a most valuable help to a much needed service in a critical emergency, and will certainly benefit your interests along with those of the entire stock industry.

#### To Avoid Dandruff

You do not want a slow treatment when hair is falling and the dandruff germ is killing the hair roots. Delay means—no hair.

Get at any drug store, a bottle of Zemo for 25c or \$1.00 for extra large size. Use as directed, for it does the work quickly. It kills the dandruff germ, nourishes the hair roots and immediately stops itching scalp. It is sure and safe, is not greasy, is easy to use and will not stain. Soaps and shampoos are harmful, as they contain alkali. The best thing to use is Zemo, for it is pure and also inexpensive.

## MAKING SORGHUM IN QUANTITIES.

Plant on West Walnut Street Presents Interesting Sight.

On West Walnut street on the edge of the city, J. F. Bates has three acres of sorghum. The hard storms prostrated half an acre or the best of the crop and it will not be worth much. Mr. Bates used Red Top and Early Amber seed and likes both very well. The fear of frost led him to cut and shock his crop which makes it somewhat more difficult to save, that is to strip and top as stripping is easiest done while the stalks are standing.

The seed is drilled in with a suitable machine and is cultivated about the same as corn. Mr. Bates regards the blades and tops fully worth as much as a good crop of hay for feed as the seed is especially good for chickens and is very saleable. His crop will yield about 130 gallons to the acre and the sample he gave the Journal reporter was surely first class. His mill and elevator cost together something like \$100 and will last a long time.

To cut, strip and gather the stalks and boil the juice takes seven men and a team about ten days. It also takes fifteen cords of wood. Allowing the usual wages for the men and team it will be seen that the outcome is good and Mr. Bates says he has ready sale for all his molasses at 75 cents a gallon.

## ILLINOIS COLLEGE NOTES.

Paul J. Snyder, '19, will lead the devotional service at Academy hall Sunday evening. The subject will be "Worth While Ambitions."

Dr. John Balcom Shaw, a former member of the board of trustees of the college, recently accepted the presidency of Elmira college, New York. Elmira is an old and well-known woman's college.

The sophomore and Freshman classes have petitioned the faculty for permission to decide the annual class supremacy by means of a football game. The faculty has taken the matter under consideration and is attempting to arrange the details. The chief objection to a regular football game seems to be the danger involved when untrained men participate in such a contest.

The Y. W. C. A. is planning to hold its meetings in the future in the girls' study in the Jones building. The girls will move their furniture and other furnishings to this room from the present small quarters in Whipple academy.

President Rammelkamp, Profs. Ames and Whisler, Messrs. R. I. Dunlap, '03, W. G. Goebel, '03 and a number of students accompanied the football team to Normal Saturday.

Dr. C. E. Black was unable to speak last Tuesday but will address the students at the chapel exercises next Tuesday morning.

The college band held its first rehearsal in the gymnasium Wednesday evening. Trixie Justus will direct the band. The following men appeared for the rehearsal: Ralph Baker, Lucius Smith, Jr., Fred Blum, Warfield Brown, Richard Reynolds, Bryan Underwood, L. D. Giberson, George W. Barrette, Fred V. Reagel, John Russell Dean, Clyde Land, Oscar Thiebaut, T. M. Justus. The prospects seem good for the college band.

The College Glee club has also been organized. Mr. Harry Beckman will be the director of the glee club. The following officers have been elected: Ralph Baker, president; Brownlee Hubble, secretary and treasurer; Lucius Smith, Jr., business manager and Harry Beckman, conductor.

J. W. Galloway, S. W. Henry and Dr. George W. Miller were among the city visitors yesterday from Woodson. Mr. Galloway was visiting his daughter, Mrs. Lottie York.

# A MEMORABLE ELK HUNT IN THE ROCKY MOUNTAIN COUNTRY

(Continued from page 7.)

Some instant, causing echo after echo to rebound between those two ranges of mountains. Some of the fellows from the camp rode over to each of us and just at dark, and before the tent was up and the burros still unpacked, we had two large bucks in camp. The amount of deer liver and bacon, with the excellent biscuits prepared by Magill, that we put under our belts that evening kept the cooks busy long past over time; all being tired out with the travel, we retired as soon as our appetites could be satisfied.

Saturday morning, all camp life seemed ready for an elk hunt, but as Mr. Roberts and Mr. Adams, who had arranged the trip for us, were each away on a very limited stay, we insisted that they take the elk hunt, the rest of us going elsewhere; they did so, returning late in the afternoon with part of the hind quarters of an elk, but too late to go back with the burros and bring in the balance. Roberts having killed a five point bull and Adams a two point bull. Savigny and I took a trip southeast three or four miles from camp, to look for elk sign and

see if they were using that part of the range, finding none we began working back towards camp about the middle of the afternoon. Although we saw no elk sign, deer were to be seen in every direction, and we each killed a buck with exceptionally fine antlers; then returning for our horses we camped about the middle of the afternoon. The buck I killed had horns in a perfect state of velvet; with two spikes to the side, measuring twenty-eight and one-half inches across the beam, and in all the antler mania since examined I do not find one recorded in excess of these measurements. A little while later Magill returned with a five point buck and it became common talk in the camp that the invitation extended by like to the last ranchman, to come up to camp the middle of the week with five or six pack horses and the outfit would supply him with his winter's meat, now seemed sure of realization. Deer hunting under these conditions seemed almost a joke, not enough hunting to it to make it really enjoyable, you could practically select your deer head you wanted to keep for mounting, leaving so many to choose from. Sunday we did not hunt, the day was spent in pleasant chat or cleaning up, like going on a visit to the last ranch and some of the party looking up new elk hunting grounds, a matter we kept constantly in mind.

"Scotty" and Nelse Yost went over to Pagoda Peak, some twelve or fifteen miles away, in search of bear and elk signs, neither of which we found, but however, were plentiful on every side. They ascended the peak to its roof-like summit and took in a view of the country for many miles in each direction and could see over to where some of Uncle Sam's soldiers had met their fate with the Indians some years prior. They returned late in the evening after a pleasant trip and, while rough traveling, it was greatly enjoyed by men who see as little of this kind of life as we warlike men do.

Ike and I concluded to take a trip over to one of the lofty peaks to the west and away above timber line; after going some distance, in order that we could approach the high place far to the west, and follow up the sloping side, we reached the summit, from this outlook we could see mountains as far as the eye could reach, chain following chain, while the last ranch house passed coming in, the coal and house made of big logs, and twenty-five or thirty miles distant, looked much like a match box. The panorama here presented was amazing pay for the entire trip and when subsequently Nelse and I again reached this peak we stayed here for more than three hours, and from the precipice witnessed a violent thunder storm, we being above the clouds. The billowy foam-like mist rolled on and on and the roar of the thunder echoed and re-echoed between the two great ranges, and flashes of lightning traveled, it seemed horizontally; and occasionally a wisp of cloud, becoming detached from the main body, would pass near us. We sat there completely absorbed in this great demonstration of Nature, feeling it a great privilege to witness such scenes, and impressed with the feeling that man, at best, is a pretty small feature in this great world. Much as we enjoyed the surroundings, with the near approach of night we reluctantly descended to our ponies picketed some twenty-five hundred feet below, and crossing the divide before it became dark, we reached camp about eight o'clock, highly pleased with our experience.

Monday there was little hunting done, we having much game to attend to, and preparing the heads for the taxidermist, to this must be added the time required to "jerk" a lot of venison, as each wanted to bring some home with him in fulfillment of promises made our hunter friends. "Scotty" went out for a while and seeing a deer he thought would look well beside the elk he intended to acquire, put one of those 50 calibre "pills" through him and returning got a horse and brought him into camp. Mr. Bently, who was very much affected by the high altitude, would each day ride on his pony to a park which overlooked one of the grandest views to be seen in that vicinity, here he would hunt over a rather level part of the range, fearing to chance it any higher.

He always carried a pair of excellent field glasses thinking that possibly some movement of the elk would bring some herd in his vicinity, and he was correct for many passed through, but none with a head suitable for mounting. When he found one standing, as they frequently do, as though enchanted with the scene, for some time on the brink of a great canyon he would get out his glass and carefully study him. He saw two deer of more than common size and head gear and soon killed both, coming back to camp for assistance he got some of the pack outfit and brought the deer into camp. He had a great time of it but greatly regretted the handicap that prevented him going into the higher altitudes and getting the elk he so much desired. Ike's ranchman friend responded to the invitation extended him to come up and get his "winter's meat" (a western expression) and visited camp with his pack outfit which we soon loaded with a plentiful supply of meat.

Roberts changed the general order of business by putting in his last day shooting Mountain Grouse with his 22 calibre rifle, thus adding a welcome dish to the bill of fare, while I brought in another five point buck that mounted beautifully. Roberts and Adams left early on the morning of the following day, arriving at Botsers late the next night, returning to their homes by the next train.

It was decided not to go into the section which the largest herd of elk were using for another day at least, in order not to take too great chances on causing them to leave. The next day Scotty and Nels and Magill, Ike and myself forming two parties, they going far to the north on the same range, while Magill, Ike and I took in some ranges some ten miles to the west. When we arrived at the canyon we intended using we picketed the ponies, Magill going north and Ike and I to the west, we saw a few, Ike taking the only shot offered and missed, it being a poor chance for a hit. But later on, when nearing our meeting place with Magill I killed a big buck with eight points on one side and seven on the other. Soon after we came upon Magill, down on his knees and covered with blood from head to foot, badly engaged in butchering, he having killed the "Old King of the Rockies", an elk with the most symmetrical head of horns to be found in the country. After assisting him we got our ponies and returned to camp just in time for supper; "Scotty" was also in his element, as he got his large six point bull, one to be proud of, and the great head now hangs upon the west wall of the parlor in his country home west of town.

The next day Ike and I took a trip and drew another blank, not caring to kill any more deer, and upon our return that evening, Nelse and I arranged for a side trip and a stay until we each killed a bull elk. With an early start next morning we were some miles away from camp when hearing elk whistling in different directions we decided that here was where we "got ours".

After some severe climbing and crawling a long distance we succeeded in getting within range and each killed a large bull, his with six and mine with five points to the side; after attending to them and while preparing for an early start for camp we stopped to listen to another band of elk in a whistling concert, and when some of them got in range I killed a six point bull, which in the agony of death fell over a precipice, dropping about forty feet, but it had as well been a thousand, as he was past getting with anything but rope and pulley. Other troubles soon settled upon us for the time consumed in listening to the "elk concert" and the killing of the second elk and our efforts to reach him, consumed that portion of daylight remaining and needed to cross the divide. It was soon apparent that the dreaded experience of a dry, foodless camp was to be ours. We camped in one of the many little parks at an altitude of about 11,000 feet; our experience had some features of the novel about it, the howling of wolves, the whistling of elk, sometimes in a shrill blast not unlike the whistle of an ordinary threshing engine, though much less in volume; then with variations, usually in minors, and not unlike the sound of a flute, and ending we noticed, when the bull in calling was near enough for us to get the sound plainly not unlike some sounds emitted by the donkey at the end of his bray. These sounds are quite musical. We

alternately kept up the big fire or tried to sleep with sweaty saddle blankets for a covering and a saddle for a pillow, and but for the hard, dry, granite like earth to lay on, might have put in a worse night. Towards morning, just before daylight, the chill became intense and with chattering teeth we eagerly hugged the big fire, soon starting a second one and by keeping between them we soon got comfortable, at break of day we started for camp and immediately after our arrival "Scotty" brought out some of his famous "burgoo soup" as hot as a camp fire could make it, and we soon thawed out; and with several relays of hamburger steak, made from the tenderloin of elk, accompanied with Magill's biscuits, German fried "spuds", as potatoes are called in camp, we soon revived. Then saddling up the necessary burro meat and provided with a large meat saw and an axe we returned to the elk and quartering them made our trip back to camp, getting in shortly before dark. Pretty well tired out? Yes, but feeling powerfully contented and happy and well prepared for a good night's rest upon a bed made of pine boughs, a most comfortable couch when one understands its preparation.

After a couple of days the venison was all jerked, the skins sufficiently dried for packing and with every one fully satisfied with his part of the hunt we broke camp for our return just before noon and got to Marvine Lakes, according to our plans, for another evening's sport on mountain trout.

By keeping up an early and late travel with the pack train at mid-day of the third evening we landed in the corral at Nelse Yost's home after one of the finest trips any of us had yet experienced in the pursuit of big game.

The trip home was without incident, excepting that all of us went over some of the pleasures enjoyed and planned others for future attainment.

When the horns came back from Kaeppfer, the Chicago taxidermist, it was stated by many that the collection was the finest ever brought to town.

The "Trigertite" was subdued for the time being, and, while less annoying, I still must plead "guilty" to strong symptoms of it quite often. Time goes on with its changes, and since this memorable trip Mr. Barrier, Mr. Savigny, Mr. Bently and Mr. Scott, in the order named, have all crossed the "great divide" in the span of life and no longer gather around the camp fires they so much enjoyed.

**WILL SING FOR MEETINGS.** Harry Beckman left Saturday morning for Ashmore, Ill., where for the next two weeks he will lead the singing at a series of evangelistic meetings. Mr. Beckman has been engaged in work of this kind to considerable extent since graduation from the Moody Institute, of Chicago.

## FARMERS' DIRECTORY.

The farmers' directory of Morgan and Scott counties, issued by the Farmers' Directory company from the Roach Press, is now ready for distribution. The book according to the title page is intended as a volume of handy reference for the use of farmers, giving the name, postoffice address, distance from nearest town, telephone, number of acres owned or rented, together with the nature of farming followed. The book also contains some general information relating to the treatment of horses and cattle afflicted with various diseases, together with some extracts from bulletins issued by the bureau of animal industry and the department of agriculture. The representatives of the company had a number of men going through the country and they declared that the book is practically correct and that every farmer in the county is listed. As such it should prove of value and interest to the farmers of the community and others as well.

## A DISTINGUISHED VISITOR.

Next Friday evening Hon. J. DeP. Soares, vice consul and acting consul of Portugal at Chicago is expected here the guest of E. M. Vasconcellos. In the evening Mr. Soares will address the Portuguese people of the city and vicinity in the parlors of Northminster church and afterward will hold a reception. He will also probably remain in the city over Saturday meeting the people still farther.

The gentleman's visit has absolutely no political or important significance whatever. He comes solely as the guest of Mr. Vasconcellos in a strictly private capacity. He speaks the English language fluently and will be a person whom it will be desirable for his countrymen and their descendants to meet.

## PROPERTY AT AUCTION.

A small tract of land belonging to the estate of the late William Woolner, of which S. C. Latham is the administrator, was sold at auction at the south door of the court house Saturday afternoon. The property was purchased by Charles Thompson for \$1,100.

A residence property on West Lafayette avenue, belonging to the estate of the late Edward Marks was sold at auction Saturday afternoon by Court John E. Wright. It was purchased by Mrs. Elizabeth Marks, widow of the deceased, for \$2,500.

## PROF. ZELLER HERE.

Prof. J. A. Zeller of Citronelle, Ala., is in the city to spend Sunday as a guest at the home of Mr. and Mrs. George S. Rogerson. Prof. Zeller was for some years principal of Whipple academy here and is remembered pleasantly by a great many students of the academy and college. He has been living in Citronelle for a number of years.

## Many Kinds of Rheumatism One Sure Mode of Treatment

Authorities Say Don't Use Liniments. Treat It Through the Blood. You Can't Rub It Out!

Whether your trouble is Sciatica, Lumbago or the dreaded Arterial Rheumatism, the answer is the same. You must treat it through the blood. That is the only way to rid the system of uric acid, purify the blood and revitalize the nerves. If the blood is freed from impurities, Rheumatism must go. This in short is the exact knowledge gained by the research laboratories of the S. S. Co., in Atlanta. There tests have been made for fifty years. They know what Rheumatism is. They know that S. S. S., the remarkable blood tonic, which they originated, will relieve you of Rheumatism. Take S. S. S. today. The complete recovery of thousands of sufferers by the use of S. S. S. is positive proof that you can be relieved. S. S. S. is a blood tonic—a purifier that restores the blood, revitalizes it, cleanses it, makes it pure as it was before it became poisoned with impurities. S. S. S. gives it strength to drive out these impurities—the uric acid and organic poison and with it the Rheumatism. Get S. S. S. at your druggist's. If you need special advice, write to S. S. Co., Atlanta, Ga.

## UGH! ACID STOMACH, SOURNESS, HEARTBURN, GAS OR INDIGESTION

The moment "Pape's Diapiesin" reaches the stomach all distress goes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. Pape's Diapiesin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructation of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.—Adv.

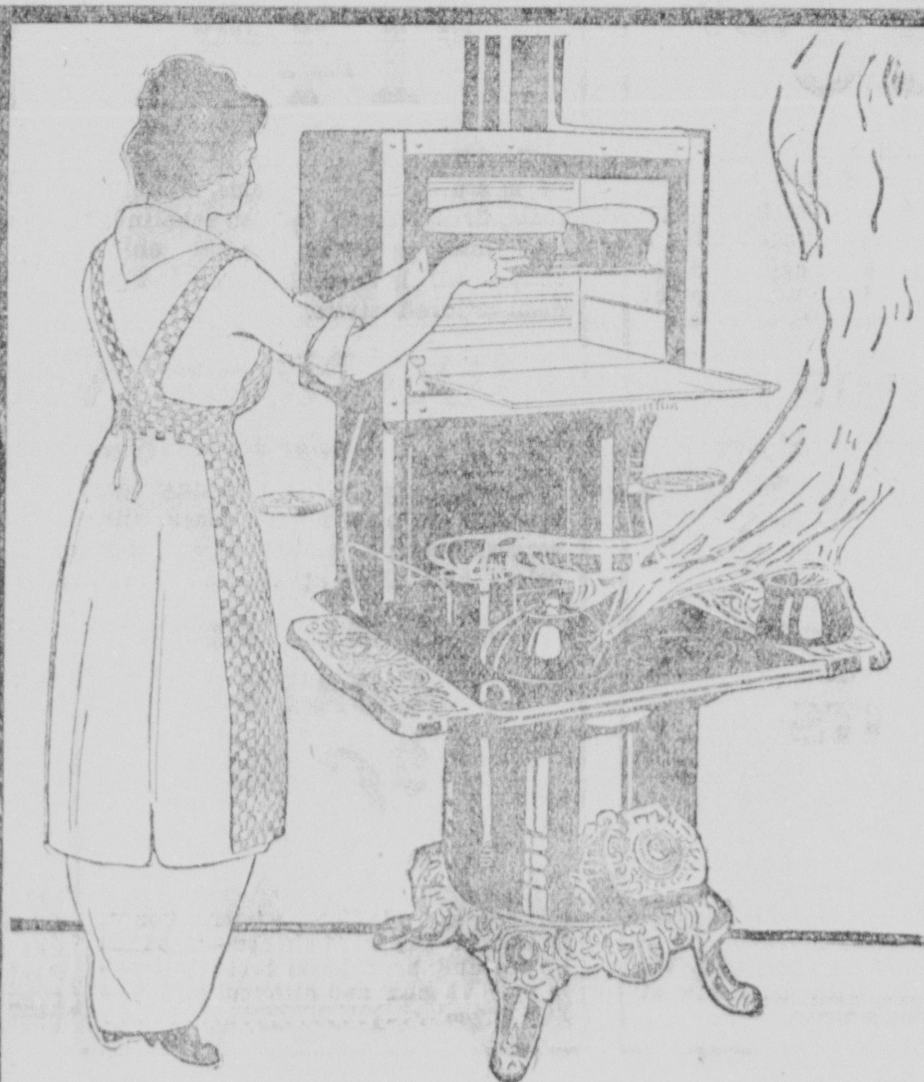

## MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mothers! See if the tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits. Sold here. Get the genuine made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

## WORLD'S MARKET NEWS

DELAYS TO MOVEMENT OF CROPS  
LEADS TO NEW UPTURN IN WHEAT

Despite Something of a Later Reaction Close Shows a Net Advance of 1/2 to 3/4 of a Cent—Other Leading Staples Show Gains.

Chicago, Oct. 16.—A wet weather northward and southward delaying the movement both of the spring and winter crops, led to a new upturn today in the price of wheat. Despite something of a later reaction, the close which was unsettled showed a net advance of 1/2 to 3/4 of a cent, with December at \$1.08 and May at \$1.09 1/2. Gains were made, too, by the other leading staples—corn 1/4 to 1/2 c, oats 1/2 to 3/4 c and provisions 2 1/2 to 3 c.

Difficulty of accumulating any large supply at the chief terminals in the northwest appeared especially to serve as an incentive to speculative buyers of wheat. Big receipts from Minnesota and the Dakotas had but little effect on sentiment as stocks at Minneapolis in particular were decreasing. With rains which interfered with threshers and hauling and which threatened to become more general, the scarcity of contract grades seemed likely to assume an acute form. Chicago stocks being exceedingly small and export demand at the seaboard being stimulated by the military situation in the Balkans. Active buying for millers tended also to strengthen the market.

Heavy selling orders that were encountered at times in the wheat pit notably during the last half of the day, were chiefly ascribed to attempts at profit-taking usual at the end of the week.

Some of the sales, however, were doubtless inspired by crop estimates which gave an advantage to the bears.

Increasing damage reports from the northern section of the belt put strength into the corn market. Prices were bullishly affected also by the outlook that wet weather would check offerings from first hands.

Oats felt the effect of a lively call from the seaboard. On the ensuing upturn, though, longs sold freely.

Provisions rose in response to gossip of immense export transactions. It was said there had been a heavy reduction of warehouse supplies since Oct. 14.

## WOMAN'S COLLEGE NOTES.

Thursday occurred the formal recognition of the Seniors in the regular chapel exercises. The Sophomores were the official escorts for the Seniors and Faculty, and were formed in a double row. Between this row first came the Seniors in caps and gowns, followed by the faculty. The entrance was made very impressive from the large number in the Senior Class, twenty-one being the number of degree Seniors. Mrs. Hartman sang Kipling's "Recessional." Following this President Harker gave a very helpful and inspiring talk to the Seniors.

The great event of the year is Founders' Day. This year it was most fittingly observed, and in many respects was the most successful celebration that has been held. A great many out of town guests were present and enjoyed the hospitality of the College. After the exercises in the chapel, which has already been described in the paper, the students and faculty and out of town guests repaired to the campus where they enjoyed a splendid picnic dinner. Following this the conference of the friends took place in the old chapel. A great many participated in the discussion of what the College needs and best ways to meet the needs. A brief Board meeting followed the conference. The culmination of the day's program was the brilliant concert given in Music Hall by Director Stearns, Miss Lazelle and Mrs. Hartmann.

Many visitors have been at the college the past week. Mr. and Mrs. W. E. Fry of Mattoon, visited their daughter, Miss Lois. Mr. Irvin Coultas, of Winchester, visited his daughter, Margaret, a Senior, and Miss Lois, a member of the faculty. Rev. W. H. McGhee visited his daughters, Misses Helen and Miss Mary. Mrs. Jessie Rhodes Pemberton, of Oakland, Mrs. Mayme Frazier Seymour, of Danville, Nellie Y. Taylor and Grace Foucht, of New Berlin, former students, were interested visitors this past week. Mrs. Ella H. Orr, of Pittsfield, prominent in W. C. T. U. work has been attending the Founders' Day exercises.

Mrs. Susie Brown Dillon, of Topeka, Kans., presented a portrait of her father, Judge Wm. Brown, at the exercises Friday morning.

The College felt highly honored to have Mrs. Alice McElroy Griffith, mother of Mrs. T. J. Pitner, and the oldest surviving member of the first class of the College, as a visitor at the Founders' Day exercises. A unique feature of her visit was the seven young alumnae, as her attendants. They were dressed in the costume of 1852.

Among other former students and graduates were Miss Winifred Robinson, of Timewell, Velva Mann and Clara Dilling of Metcalf, Mrs. Elizabeth Dunbar Tompkins, of Griggsville, Hazel Hamilton, of Beards-town, besides many others.

The Lambda Alpha Mu society gave their annual banquet Saturday evening. A most delightful time was enjoyed.

Mrs. E. C. Lambert is attending the meeting of the Chicago Association. This association is quite aggressive and new members are being added frequently.

The honored guest of the College during the Founders' week was Senator L. Y. Sherman. Following his address in the morning, an informal reception was held by the Phi Xi Society in his honor in the afternoon. The late Mrs. Sherman was a member of this Society and greatly beloved by all the students.

Mr. Harvey J. Sconce, of Sidell, one of the Trustees, with Mrs. Sconce, were visitors during the past week. Mr. Sconce took an active part in the Founders' Day exercises. He and Mrs. Sconce have a daughter, Miss Frances, who is a student in the Preparatory Department.

## CONSERVATORY NOTES.

Mr. Munger's piano recital will take place in Northwestern church next Thursday evening, Oct. 21, at 8:15 o'clock. The public is cordially invited to attend.

The first meeting of Phi Omega took place last Tuesday afternoon at 4 o'clock in Recital hall. Officers for the year were elected and a program was given by Inez Pires, piano, Rebecca Schelbel, voice, and Helen Sorrells, violin.

The Conservatory orchestra, under Mr. Kritch, has been holding rehearsals with Mrs. Helen Brown Read for the operatic recital at the opera house on the evening of November 3.

Earl Pond will sing a solo at Grace church this morning, Oct. 17. Mr. Munger and Mr. Dean Cochran were in St. Louis last Wednesday, and attended two performances given by the Boston Grand Opera Co. and the Pavlova Russian Ballet at the Odeon.

Mr. Paul Beebe, the new instructor in cello at the Conservatory, has been engaged to play at a recital of the Amateur Musical club, Springfield, in November. Much enthusiasm has been expressed in Springfield musical circles over his artistic playing.

## FIRE ALARM.

The fire department was called to the residence of Owen Magill, 443 South Main street, about 7:15 o'clock Saturday morning. Fire had started in the roof of the kitchen from a defective chimney. It was necessary to use both the chemical and the engine to extinguish the blaze. The damage to building and contents from fire and water probably will be several hundred dollars.

ness. They are widely copied—but no other makers seem able to get their incomparable effects.

These clothes are too slowly and too carefully made—the output is too limited—to sell to every store in a city. So there is never more than one merchant in a town who can offer these designs. But that merchant is carefully selected.

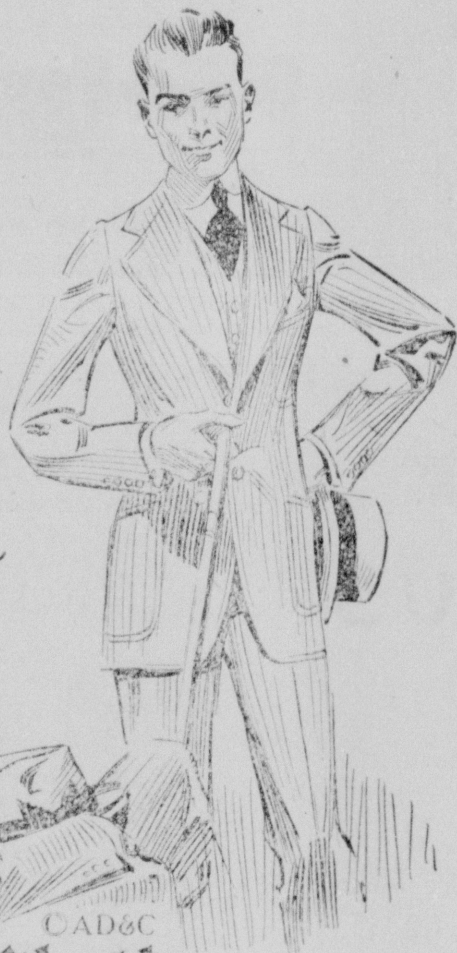

*The Row*, the style shown in upper left; is one of the most popular young men's models. Patterns: new Normady checks and imperial stripes.

*The Robin Hood*, the overcoat in the lower right, is a box back coat. Silk yoke, velvet or self-coat. About as smart a style as you have ever seen.

## CHARLTON MAY BE SENTENCED ON MONDAY

Young American's Attorneys Will Insist That There Will be no Further Court Delays.

Como, Italy, Oct. 16.—Porter Charlton, the young American who killed his actress bride at their villa on Lake Como five years ago, is one of the greatest of international tragedies, will fight any attempt to further prolong the technicalities that have delayed his trial, when the case is called again on Monday. He will demand that the trial proceed and that whatever sentence is to be imposed be pronounced at once. The long and wearying legal fight waged in America to save him from extradition, followed by repeated delays in the Italian courts have played on the nerves of Charlton, and he is anxious to have it all over with.

It is not believed that the proceedings will occupy many hours, for the facts in the murder are not disputed. It is possible that the young American will know his fate on Monday. The principal point on which the jury will be harangued is whether Charlton was rendered temporarily insane by the treatment he received from his bride, who is said to have taunted him with his inferiorities. Two Italian experts recently examined Charlton. One found him legally insane at the time of the killing, while the other disagreed with this view.

Charlton is not indicted for murder in the first degree. He is charged with "unpremeditated murder," the extreme penalty for which is twenty years. The deed for which he goes on trial next Monday was the culmination of an unusual romance for he was but a boy at the time, and his bride was a woman in the forties. She was formerly Miss

Mary C. Scott of San Francisco, and had been divorced when Charlton met her in New York. Fascinated by the gayety and charm of the woman, Charlton eloped with her, and the couple then journeyed to Europe. It was said that their funds were low when they reached Lake Como, and that there were many quarrels over money and over other things. Love's young dream had a cruel awakening, for it was then that Charlton learned many traits in his bride that he never had noticed under the glamor of her love.

The trial may have some sensational features. If the accused man addresses the jury, he will be allowed a wide latitude of expression. Under Italian procedure, he may interrupt witnesses at will, address the court when he pleases and make any effort to influence the jury in his behalf. Charlton has been studying the Italian language and many believe he will make use of all the privileges of a defendant.

## CONCORD INSTITUTE.

Farmers living in the vicinity of Concord, largely through the leadership of Harold Joy, have arranged for an institute to be held in the Odd Fellows' hall in Concord next Wednesday, Oct. 20. One session will be held at 2 o'clock in the afternoon and another at 7 in the evening. At both Mrs. J. C. Hessler of Decatur, and George F. Tuller, president of the Illinois State Farmers' Institute will make addresses. Mrs. Hessler's theme will be, "Making a Beautiful Home," and Mr. Tuller will talk on "Soils and Crops." These two speakers are also to appear at the Murfreesville and Franklin institutes which are to be held later in the week. Altogether the week promises to be one of very great interest to the farmers of the county.

## GAVE BOND FOR APPEARANCE.

Earl Stats who was arrested Friday on the charge of larceny gave bond before Justice Dyer Saturday in the sum of \$200 for his appearance. Herschell Jolly was before the same court on a similar charge and his bond was fixed in the same sum. It is probable that he will be able to give it and be released. These are the young men arrested on the charge of robbing the cash register in the branch of the Jacksonville Farm Supply company at Franklin.

## AUTOMOBILE SHOW ATTRACTED MANY

LOCAL DEALERS EXHIBITED 1916 MODELS IN CENTRAL PARK.

Concert Program by Jeffries Band Added Largely to Pleasure of the Day—Thirty Four Cars Were Shown—Show Closed With Parade Around Square—Automobile Gossip.

The automobile show arranged by the local papers as a feature of window display week was even a greater success than dealers or the public anticipated. There were thirty-four cars placed in Central park, which the park board had generously made available, and they were so arranged that the various "fine points" could easily be seen by the hundreds of spectators who visited the park.

The dealers had their machines in place by 10:30 and left them there until 4:30 when all joined in an automobile parade around the square. Early in the morning it occurred to J. E. Claus and C. N. Priest that the occasion would not be complete without a band, and they proceeded to take the initiative in this project. Secretary Weber of the Chamber of Commerce lent his assistance and in about an hour's time the arrangements had been made with Mr. Jeffries for the services of the band during all the afternoon. The automobile dealers joined in raising a fund of \$45 to pay the musicians. All the merchants who released employees for the afternoon so that the concert program could be given, did so at personal sacrifice of their own convenience, and the dealers very much appreciated this fact.

The intention had been to place the cars that there would be an equal number along each of the main park walks but some of the cars expected did not arrive and there was a misunderstanding or two with reference to exact locations planned, there were more on the west side than originally intended. But taken as a whole, Jacksonville's first automobile show was a decided success, and should set a precedent for a still greater one in 1916. Figures compiled show that the total sales value of cars included in the exhibition was about \$42,500.

### List of Cars Shown.

The cars exhibited were as follows:  
William Newman, Jr., 5-passenger Hup.  
Howard Zahn, 2-passenger light 6 Buick.  
5-passenger light 6 Buick.  
2-passenger big 6 Buick.  
7-passenger big 6 Buick.  
7-passenger Cole 8.  
Kellogg-Fairlee Co., 2-passenger Metz.  
5-passenger Metz.  
J. E. Stice, 5-passenger Pullman.  
Meyer & Jacobs, 5-passenger Jeffrey 6.  
7-passenger Jeffrey 4.  
Wolke Bros., 5-passenger Mitchell.

C. N. Priest, Ford Coupelet, Ford Sedan, Ford delivery, Ford touring 2.  
Priest & Claus, 5-passenger Willys-Knight, 5-passenger Overland.  
Kennedy Bros., 5-passenger Maxwell.

Steinberg-Skinner Co., 5 passenger Briscoe.  
S. W. Babb, 7-passenger Cadillac.  
Babb & Gibbs, 5-passenger Dodge.  
Donald Joy, 6-passenger McFarlan 6.

Lloyd C. Reynolds, 2 passenger Stutz roadster, 6 passenger Stutz.  
L. F. O'Donnell, 7-passenger White, Detroit Electric, 5-passenger Empire (2).

R. T. Cassell, 7-passenger Studebaker, 3-passenger Studebaker, 7-passenger Hudson.  
Jeff Duckett, Chapin, 7-passenger Halladay six.  
Jacksonville Automobile Co., service car.

The exhibit arrangements made by L. F. O'Donnell were the most extensive as he had a large sign displayed, and the Detroit Electric which he exhibited was placed on a rug with some palms and ferns for additional ornamental decoration.

### Some Mileage Records.

The automobile display resulted in quite a lot of general automobile gossip, and the life of cars and the total service one will render were among these themes. Probably Felix E. Farrell's Great Pierce Arrow holds the record. Mr. Farrell has had it in service since 1908 and during those seven years it has traveled a distance of 82,450 miles. The car hasn't the latest improvements but still responds in splendid shape when the gas accelerator is pressed. Dr. C. E. Black has an Oakland car which has not been in use as long as Mr. Farrell's car but has been sent over the road a total distance of more than 40,000 miles.

The oldest car in Jacksonville is said to be owned by William Newman. It was shown in the parade which was originally owned by the late J. S. Greenleaf, John R. Davis and others. An effort was made to locate the car designed and made by the late George Wolke many years ago but it was found that it had been dismantled and the engine was in use on an Illinois river boat. Lincoln Brasswell of Chapin, who has a unique car that he built himself, expected to attend the exhibition but threatening weather changed his plans.

### YOUR FAVORITE CREAM.

NEW CONSTRUCTION ENGINEER.  
O. C. Baltzley has arrived from Decatur and will have charge of construction work at the plant of the Jacksonville Railway & Light Co. Mr. Baltzley succeeds W. R. Morrison, who will have charge of similar work for the McKinley syndicate in Peoria.

## SOCIAL EVENTS

Six O'clock Dinner to Litterbury People.  
Mr. and Mrs. Tadmage Crum gave a 6 o'clock dinner at their home in Litterbury Friday evening to twenty-six guests. The idea of Litterbury was carried out in the decorations. Music was a feature of the entertainment which followed the bounteous meal.

### Dancing Party for Miss Whitney.

Mrs. E. J. Howells gave a dancing party at the Peacock Inn Saturday evening in honor of her daughter, Miss Virginia Whitney. About twenty couples were present and dancing continued until 11:30 when refreshments were served.

### Entertain for Guest from Missouri.

In honor of their guest, W. C. Jones of Moberly, Mo., Mr. and Mrs. A. L. Stewart entertained a company of friends and neighbors Saturday evening at their home, 717 East State street. Mr. Jones is general salesman for the Shipple Hardware Co. The guests were Dr. and Mrs. Charles M. Hopper, Miss Clara Cobb, Miss Florence Cobb, Miss Vivian Whitmer, Prof. George Gerlach, Prof. Fred G. Meyer, F. J. Heckle and Mr. and Mrs. R. C. Singley.

### Hiking Party.

The Sunday school class of Westminster church taught by Mrs. Gunn hiked to her residence on the Mound road Saturday evening. The class is composed mainly of college students and the entire membership of the class with a few invited guests to the number of twenty made the trip. At the Gunn home the party was paired off by drawing numbers and each couple prepared a dish for the supper. An excellent four course supper was thus gotten up by the guests. After the supper some time was spent socially and the return trip was made on a hay wagon. The event proved a most enjoyable one in every particular.

### Surprise Party for Chifton Corrington.

Thirty neighbors and friends went Saturday evening to the home of Chifton Corrington, 243 Pine street, and gave the family a surprise of special pleasure. Mr. and Mrs. Corrington expect this week to remove to a farm six miles east of Jacksonville. The guests gathered at the residence of M. S. Walker, 244 Pine street, and went together to the Corrington home. Light refreshments were enjoyed toward the close of the evening.

### Lambda Alpha Mu Gave Party for New Girls.

Lambda Alpha Mu Literary society of the Woman's college gave an "At Home" Saturday night at Colonial Inn, in honor of the new students at the school, over 125 guests being present. Hittie orchestra furnished music during the evening and Miss Edith Brown gave an instrumental selection. "My Ain Folk" was sung by Miss Elizabeth Witbeck. The faculty guests present were Miss Nellie, Mrs. J. R. Harker, Mrs. Beulah Ellis and Mrs. Fay Moellering. The society flower, the pink Kilmory rose, was used in the decorations and the society colors, lavender and white. An elegant banquet was served and the hours proved delightful in every way. Miss Helen DeWitt is president of the society and Miss Mary Harrison is vice-president.

### MATHIS, KAMM & SHIBE SAY

## SHOW CATTLE WON MANY PRIZES

The show herd of Jersey cattle belonging to R. Y. Gibson, southeast of the city, have just returned from St. Louis where they made their final stand of the big Western Circuit of state fairs and live stock exhibits. Mr. Gibson's son has managed the cattle throughout the circuit which began at Des Moines, Iowa and include Minneapolis, Minn.; Topeka and Hutchinson, Kansas; Sedalia, Kansas City and St. Louis, Mo.

Mr. Gibson's cattle won more blue ribbons than any other herd of cattle shown this year. In St. Louis the cattle won every first money in their classes with one exception; also the Grand Championship and Premier Exhibitor and Premier Breeder awards.

This show string consisted of twelve animals. The competition was sharp throughout the Western Circuit as is usual in the fancy cattle division. Each show brought out from seventy-five to one hundred and fifty head of select Jerseys from farms located as far east as New Jersey.

At Minneapolis where the biggest show of the year was held Mr. Gibson's cattle won first or second in every class but three. Five states besides Minnesota were represented in the Jersey class there.

Throughout the circuit the main competition in pedigreed cattle is usually between very wealthy men who have a farm near some city, stocked with "the best regardless of cost," for their playground. To outclass such as these is no small honor for Mr. Gibson.

## SHOW WINDOW DISPLAY AWARDS ARE MADE

COMMITTEE OF WOMEN SELECT-  
ED BEST FROM EACH CLASS.

Result Determined in Accordance  
With Basic Plan of the Week-  
Lines Advertised Widely in News-  
papers Only Ones Which Could Be  
Considered—Many Beautiful Ex-  
hibits.

Members of the Woman's club  
committee who kindly agreed to pass  
judgment upon the window displays  
and to award the prizes in accord  
with the announcement made by the  
local papers, reached their conclu-  
sion Saturday. The prizes thus award-  
ed were as follows:

Class A—First prize: Russell &  
Lyon; second, Lukeman Bros. Lines  
in this class were dry goods, clothing,  
millinery, ready to wear, shoes and  
jewelry.

Class B—First prize: Schmalz &  
Sons; second, Peacock Inn. This class  
included groceries, drugs, confection-  
ery, meat markets.

Class C—First prize: Brady Bros.;  
second, Andre & Andre. This class  
included house furnishings, hard-  
ware, electrical goods, musical in-  
struments, auto accessories and  
plumbing.

The first prize for each class is a  
half page advertisement in both of  
the local papers and the second prize  
in each class is a quarter page adver-  
tisement in both of the local papers.  
The committee made several rounds  
of the square and streets adjacent be-  
fore arriving at their decision. More  
than fifty merchants had dressed  
their windows for the week, making  
a special display of advertised goods,  
and the committee had no easy task  
in making their awards. The purpose  
of the whole project was to lay em-  
phasis upon newspaper advertised  
products. This means goods which  
were generally advertised in news-  
papers rather than in magazines. Na-  
tional Newspaper Display Week being  
designated by the American News-  
paper association to bring to the at-  
tention of national advertisers the op-  
portunity of co-operative work pos-  
sible through newspaper campaigns.

There were a number of extremely  
beautiful displays in store windows  
which represented artistic concep-  
tions, well carried into effect, but  
these results were not secured by the  
use of goods advertised in news-  
papers the country over, and thus could  
not be given place by the committee.  
The local papers very much appre-  
ciate the interest shown by the mer-  
chants and believe that all who took  
part in the contest were benefitted  
by the interest shown in their dis-  
plays by the general public.

The following is the list of those  
merchants who took part in the spe-  
cial display week and who placed the  
special cards and lines in their win-  
dows:

## PALMYRA HIGH WINS

FROM PAWNEE 26 TO 19.

The Palmyra high school football  
team, coached by Earl Harmon, of  
this city, defeated the fast Pawnee  
eleven Saturday by a score of 26 to  
19. The game was played on Paw-  
nee's ground. Pawnee is the team  
which Jacksonville will meet here  
on Thanksgiving day.

At the beginning of the second  
half Palmyra ran over their oppo-  
nents. In the 4th quarter the quar-  
ter back of the Palmyra team fum-  
bled and Pawnee scored their sec-  
ond touchdown. An error by the  
official, allowing Pawnee to have  
five downs to make 10 yards gave  
Pawnee their third touch down.  
Jordan who ran the 100 yard dash  
here in ten flat last summer, was a  
star player on the Pawnee squad.  
King, who was also a star athlete  
here in the meet, ran Pawnee's ends  
for 40 and 50 yard gains. Pawnee  
held Springfield 14 to 6 and beat  
Taylorville 20 to 6 recently. Jack-  
sonville plays Springfield Oct. 23.
